March 8, 2022

## THE IMPORTANCE OF YOUR MARCH 8 VOTE

Local elections are more important than ever as politics and government control closest to the people can have the biggest impact on our lives. This is even more true with the March 8 referendum to give all County voters the right to vote for all County Commissioners, undoing a ploy of the Democratic Party to gain a County Commission seat. The Republican Party of Sarasota County has endorsed all County voters having the right to vote for all Commissioners, and for the extension of the School District's tax.

### Sarasota County School District Ad Valorem Millage Election

Shall the Sarasota County School District continue the 1 mill per year ad valorem millage beginning July 1, 2022 and ending June 30, 2026 for school operational purposes, including recruiting and retaining quality teachers; implementing and preserving educational programs; providing textbooks, technology, and other resources; and sharing funds with charter schools proportionate to student enrollment as required by law, with expenditure oversight by an independent citizen's financial oversight committee?

### Sarasota County Charter Amendment to Change County Commission Elections to County-Wide Voting

Shall each member of the Board of County Commissioners be elected county-wide, thereby allowing voters to vote for all five County Commissioners as each office comes up for election, rather than voters only being able to elect a single County Commissioner from the district in which the voter resides as presently exists in Article II, Section 2.1A of the Sarasota County Charter?
